## Portugal Capacity Building for Better Use of LIFE II - LIFE CAP PT II

Projeto: 101101821 - LIFE21-CAP-PT- LIFE CAP PT II

Press Release #5 | 2<sup>nd</sup> august 2024

---

## LIFE PORTUGAL PODCASTS

The training project named LIFE CAP PT II - Portugal Capacity Building for Better Use of LIFE II will launch the first of a series of 24 podcast episodes in September 2024, aiming expanding communication and engaging third parties in the discussion of critical LIFE topics. These series will feature participants in LIFE projects or experts in various thematic areas, such as: LIFE and sectoral policies, ongoing LIFE projects, critical issues for success, key aspects related to transnationality, replication, transfer, and project co-financing.

Released monthly, and until the end of the project, the podcasts will be available on the project's website and on APA's LinkedIn and YouTube channels.

## Tailor-made Workshops

Several tailor-made workshops will be held within the scope of the 2024 calls, in which, in entirely dedicated and customized sessions for each proponent, participants will be able to clarify doubts and receive support to improve their applications that are already in an advanced stage of preparation. These sessions will start at the end of August for SAP (Standard Action Projects) and for the CET (Clean Energy Transition) subprogram in early September, before the deadline for submitting applications.

## New LIFE FAQ

The new and updated Portuguese FAQs (available to candidates and/or beneficiaries of the LIFE Program) will be published in August, including questions related to the CET subprogram (Clean Energy Transition). The published document aims to clarify the main doubts regarding applications or ongoing project implementation. Additional questions can be addressed through an "Open Desk" session (scheduled moment with LIFE technical teams) or via email directed to the national contact points (NCP). Annual revisions to this document are planned, as a complement to the European Commission's FAQs.
