

LIFE CAP PT II Project – National Capacity Building Project for LIFE Program

LIFE21-CAP-PT-LIFE CAP PT II

PROJECT NUMBER: 101101821

Duration: 36 months (01.04.2023 – 31.03.2026)

Budget: 416 883.00€

EU financial contribution: 396 038.85€

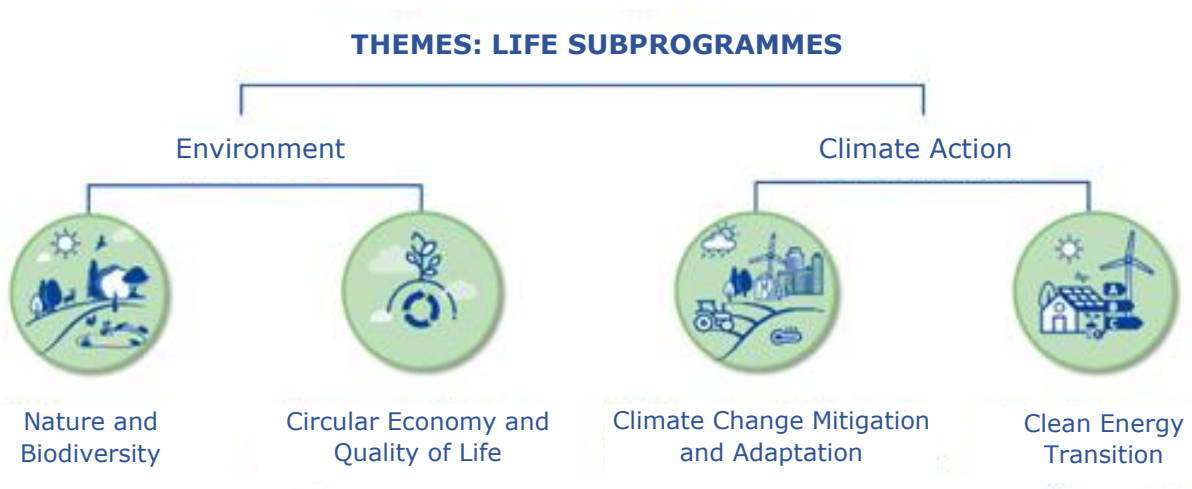

Topic: LIFE-2021-TA-CAP

Website: <https://apambiente.pt/programa-life>

The Project

LIFE CAP PT II project is a national capacity building project for the LIFE Programme, which aims to improve the overall Portuguese capacity to participate in this programme and promote its use by potential national applicants, increasing the number and quality of projects that are submitted annually.

LIFE Programme is a Community funding instrument entirely dedicated to Environment and Climate Action, with sub-programmes in the field of Biodiversity/Nature, Circular Economy and Quality of Life, Climate Change Mitigation and Adaptation and Clean Energy Transition.

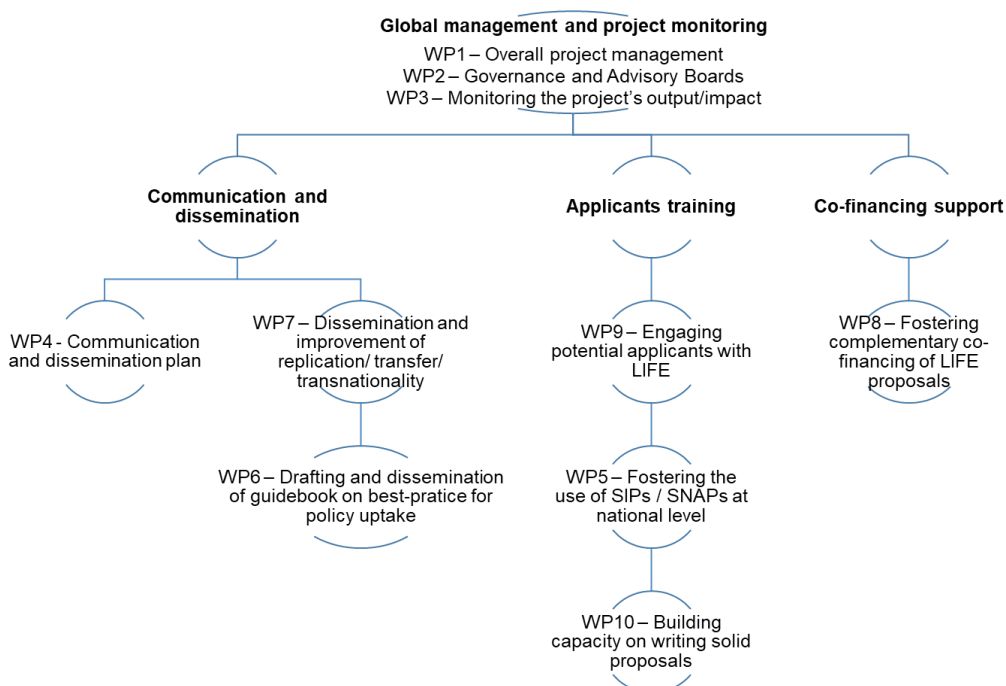

Goals

The project's specific objectives are:

- Improve and foster good governance through stakeholder involvement, thereby seeking to integrate external input and technical advice and leverage the support provided;
- Promote the communication and dissemination of LIFE Programme and its projects;
- Involve potential beneficiaries through critical and timely discussion of project ideas and their suitability for LIFE, promoting a "LIFE community" well prepared for the establishment of partnerships and consortia;
- Provide applicants with targeted support for the preparation of stronger proposals in all sub-programmes;
- Improve the design of the project with regard to its replication, transfer and transnationality;
- Increase the number of Strategic Integrated Projects (SIP) and Strategic Nature Projects (SNAP) promoted by Portuguese authorities;
- Enhance the influence and adoption of project results in current policies, based on the positive experience of other projects;
- Facilitate contacts between LIFE applicants and potential co-financers to ensure complementary co-financing to the LIFE Programme.

Structure

LIFE CAP PT II project is organised according to 10 Work Packages (WP):

Consortium

The project is coordinated by the Portuguese Environment Agency, in partnership with the Directorate-General for Energy and Geology, the Institute for Forests and Nature Conservation (of the Autonomous Region of Madeira), the Regional Secretariat for the Environment and Climate Change (of the Autonomous Region of the Azores) and the company Desafio das Letras.
