Explanatory footnotes

- 1- Data calculated with WCA methodology.
- 2- 100% of the reported quantity is related to "Incineration at waste incinerators with energy recovery".
- 3- We have considered POM equal to waste generated..
- 4- The estimate of non-reusable sales packaging was made taking into account PRO Sociedade Ponto Verde data from 2016 (at that time it was the only PRO and its scope included all non-reusable packaging and we had information about the quantity of packaging by type - sales, grouped and transport). It was used the ratio of sales packaging at that time (2016) in the total packaging PoM in 2024.
- 5- Data based on responses to a questionnaire (identical to the form present in the Reporting Guide) that became mandatory since 2024 (reference year 2023).
- 6- We have no information about Other material for sales packaging.
